MEMORANDUM FOR: [REDACTED]

Vernon:

These Fitness Reports [REDACTED] look very good indeed, and I certainly have no objection to his being considered for the Administration Career Service. He would appear, however, to be at mid-career insofar as age is concerned and maybe even a little beyond this as far as grade is concerned. I know that he has been in grade for three years and is undoubtedly looking for a promotion. Regardless of his capabilities, he would have a very great deal to learn in the "A" Service before he could be considered for promotion and probably before he would be worth the grade GS-14 which he now has in the Contact Division. These factors should be borne in mind [REDACTED] as well as ourselves, as we consider his application if he does, in fact, care to make one.

As you know, I would be much happier to have youngsters coming up from the lower grades than to bring people in laterally, especially those whose entire service has been so isolated from the Agency.

/s/  
L. K. White
